Implemented in roughly 1 million organizations worldwide, **ISO 9001** continues to be a highly regarded quality benchmark. The standard is not sector specific and can be implemented by organizations of any size which provide products and/or services.

Being ISO 9001 certified means that **SCP SCIENCE** has successfully implemented a series of quality oriented processes to ensure that the products and services it provides will continually meet or exceed customer requirements. In fact, being **ISO 9001** not only signifies that we will provide a product meeting your needs, it is also a guarantee that we will continuously improve, all in the aim of enhancing the satisfaction of our customers.

SCP SCIENCE scope of **ISO 9001** certification covers the full range of its activities including the distribution, design and manufacturing of **DigPREP** systems and accessories. Remember that all 9001 registered companies may seem alike until you compare the scope of their certification.
